

I am a member of xm-radio. I have 4 of them. Please ignore the obvious attempt to ruin a great thing. I drive OTR and enjoy my xm system. The instant weather and traffic is a blessing. By the time the AM or FM stations get done with their 30 to 45 min. commercial breaks it's too late. You're either in a traffic jam or the storm already passed. So please don't give in to these whiners who've been raping the industry and the listener for years. Thank-you for your time.
